Taiwan's Economic Policy

Lecturer

Name	Jennjou CHEN 陳鎮洲
Education	Ph.D. in Economics, Cornell University, US
Current Position	Associate Professor, Department of Economics, National Chengchi University
Research Fields	Labor Economics, Health Econometrics, Economic Education, Applied Econometrics

Course's Schedule

Date	July 4th, 5th, 6th, 11th, 12th and 13th, 2022
Time	09:00 to 12:00 AM

Course's Objectives

This course provides an overview and analysis of the economic policy of Taiwan. The focus is on labor and health policy. Basic economics models like demand and supply analysis are introduced to gain a deeper and better understanding of the effects of various government policies.

Course requirements/ Grading Standards

- Class Attendance and Participation (50%): students are expected to attend all lectures and actively participate in class discussion.
- Group Project (50%): the assignment is to present a group project about labor and/or health policies for a specific country. More details of the group project will be announced in class.

Prerequisites

Basic knowledge in economics at high school or university level.
